

Basic Measurement Guidelines Made Easy

Using a tape measure and graph paper, measure your room using the following steps...

Horizontal Measurement:

1. Measure from wall to wall at 36" height.
2. Measure from corner to window or door opening.
3. Measure across opening from trim edge to trim edge.
4. Measure from edge of trim to far wall. Compare sum of #2, #3, and #4.
5. Mark exact location of water, drain, gas lines, electrical outlets, and switches on drawing.
6. Measure from wall to wall above window and compare to #1.

Vertical Measurement:

7. Measure from floor to window sill.
8. Measure from window sill to top of window.
9. Measure from top of window to ceiling.
10. Measure from floor to ceiling—compare to sum of #7, #8, and #9.

APPLIANCE AND FIXTURE INFORMATION

List desired or existing appliances on drawing. Be sure to indicate 220 volt outlets, wall mounted appliances and fixtures, telephone, and cable locations. Also, note gas lines and appliance locations.
